

DON'T STOP!

When completing any TAOND program, whether it is a Full Certificate program or a Mini, it is recommended that you complete ALL your program modules tests and assignments in full before beginning your practical applications so that you can offer your practice clients any of your practice services not just the module you have finished.

What that means is don't stop at Module 6 and wait for all your required manicures and spa manicures to be completed. Move on to M7, 8, 9 & 10 (if they are in your program), complete all your tests and assignments THEN go back and start your practical work. This is the ideal process so when you have a practice client with you, you can offer them a variety of services rather than trying to get them to fit into one application because that just happens to be the module you are on.

If you have any questions about your program, please feel free to reach out to us at info@taond.com - we'd love to help you!
